

# CANADA JETLINES OVERVIEW

We're the Canadian airline that is all about value. We're Shaped By Our Beliefs: To Be Bold, To Be On Your Side, To Make Flying Fun, & To Do It Together.

## HI! IT'S NICE TO MEET YOU

We're a new, leisure focused carrier, utilizing a growing fleet of Airbus320 aircraft, and providing passengers with another choice to travel to preferred destinations within the U.S., Caribbean, & Mexico. We strive to make air travel the best it can be for the best value possible. We're just honest about flying, because we value travel and exploration.

## NEW LEISURE AIRLINE

Targeting take-off in Spring 2022, Jetlines will use a state-of-the-art web booking platform, making the turnkey solution available to Travel Agents, Tour Operators, and consumers, with the capability of generating revenue on reservations and ancillary sales. We aim to provide more revenue opportunities to express our gratitude to current and future agent partners and all the work that they do.

## GROWING FLEET

Jetlines has selected the Airbus A320 as its fleet standard, starting with one in 2022, growing to a forecast 15 aircrafts by 2025. The A320 provides passengers with a larger cabin width and single-class configuration, all economy, 174-seats with extra comfort seats available at higher prices.

## FRANKLY SPEAKING

Much like our passengers, we have personality. We like to engage frank conversation & speak honestly. Frank is the one to do it and his look might change depending on his mood or location in the world.

## ALL-CANADIAN TEAM

Led by an all-Canadian executive team and Independent Board of Directors, the launch of Jetlines, following the height of the pandemic, requires an experienced management team as resilient as the brand. The team represents more than 100 years of combined experience in the Canadian Global airline and travel industries.
